Agenda (con'd)

SPLIT SESSIONS

Split Session 1:45PM – 2:30PM

Grand Ballroom A

GSFIC-DIRRT-JMA-GBI/Flexibility + Adaptation of Space: The DIRTT Solution

Plan for future adaptations over the life cycle of the building by designing and constructing with flexibility in mind. DIRTT offers one solution

Grand Ballroom B

Base Lightning Protection

Lightning Protection Basics-AIA CEU 1 hr. Credit

Grand Ballroom C

CROFT & Associates

Campus Networks: Mission Critical to Student and Campus Success and other agency environments

Split Session 2:45PM – 3:30PM

Grand Ballroom A

Georgia State Construction & Interior Consultants

Lessons Learned from a Using Agency Perspective on Navigating a Construction Project – Concept to Completion

Grand Ballroom B

Nova

Engineering Evaluation Tools to Determine “What Caused the Cracks” CEU Credit: 1-hr; Health, Safety and Welfare

Grand Ballroom C

GHD

Can you hear me? Mass Notification Systems Implementation -AIA CEU 1 hr Credit

3:30PM – 4:00PM

Break/Visit Exhibitor’s Booths

Veranda/Plantation Rooms

Split Session 4:00PM – 4:45PM

Grand Ballroom A

RMF Engineering

Georgia Gwinnett College has experienced rapid growth from its beginnings in 2006 to a current enrollment of over 12,000 students. Part of the campus growth and evolution has been a focused effort to develop district chilled water systems with the long-term goal of developing a centralized chiller plant to serve campus. This presentation will discuss the planning and implementation of the first phases of interconnected buildings and the plan for campus expansion.

Grand Ballroom B

Houser Walker Architecture

UGA- New Additions to Old Buildings Expanding an older facility presents unique planning, design and construction challenges. This session will review necessary considerations when undertaking an addition to an old building, such as historic preservation, life safety, common existing conditions, and useful materials and systems for integrating the new and old. This session will use the addition to historic Baldwin Hall at the University of Georgia as a case study to describe strategies and lessons learned during design and construction.

Grand Ballroom C

JE Dunn

Lean Construction AIA CEU 1 hr Credit -This session will bring awareness of Lean Construction and how it maximizes efficiencies to deliver the best value to customers. We will discuss how projects are delivered through Lean Construction and help the audience understand how Lean can benefit the delivery of their construction projects.

5:00PM – 6:30PM

Network Session/Exhibitor Booth

Veranda/Plantation Rooms

7:00PM – 10:00PM

Dinner/DJ/Photo Booth

Legacy Pointe

8:30PM – 11:00PM

Hospitality Suite

TBD
